MACHINING DIVISION

YOUR PARTNER IN PRECISION

SPECIALTY MACHINING PROCESSES

State of the art machining technologies in the hands of experienced millwrights produce components and assemblies machined to the industry's most exacting tolerances.

PRECISION ASSEMBLY

Starting with the procurement of raw materials Walinga specializes in machined components to exacting client standards. We double and triple check tolerances at every stage, creating the finest in component parts and final assemblies. Precision assemblies, built to specification, tested and delivered on time and ready for your production line.

HARD COATING

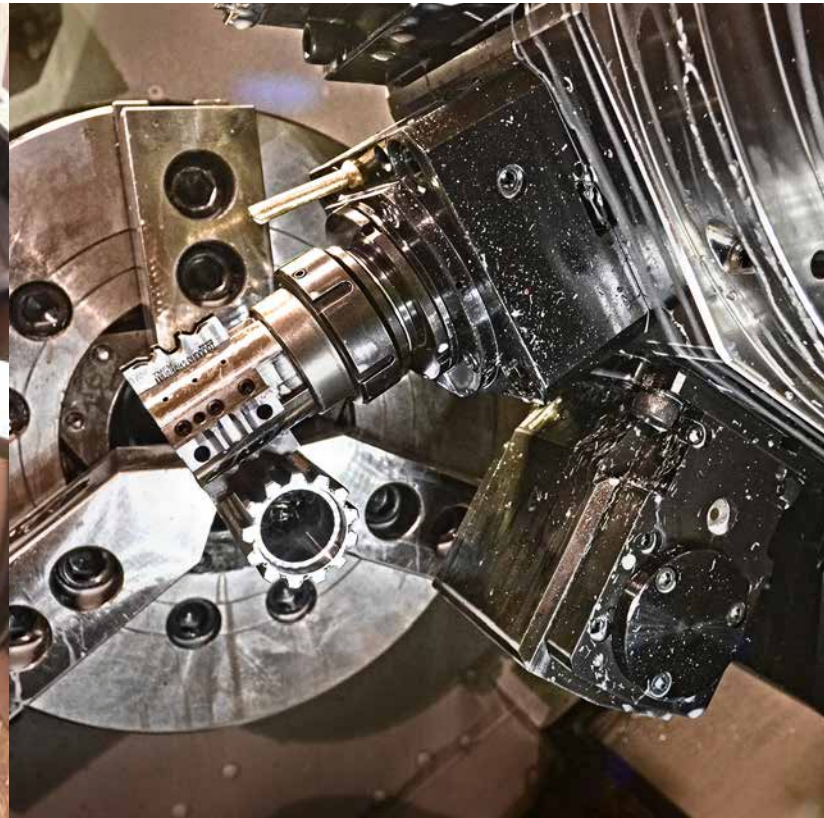

Increase durability on high wearing internal or external component surfaces.

PRECISION MULTI-TASK MACHINING

Our skilled machinists can efficiently produce low or high volume complex parts on our advanced machine tools.

COORDINATE MEASUREMENT TECHNOLOGY

Reverse engineering, dimensional specifications and Quality Assurance are possible with the world class support of portable FARO Arm Coordinate technologies.

BEAUTY, STRENGTH, VERSATILITY

Whether large pump and valve bodies, truck delivery systems or small specialty components, Walinga provides tailored manufacturing solutions specific to your unique demands.

Beauty is in the details.

Walinga is a company built upon family values; honesty, integrity and cooperation. Walinga products and services represent the best in manufacturing excellence.

For 60 years we have manufactured and found solutions in all facets of the design and construction of precision components and assembled units.

Your source for raw materials such as castings and components, to final assembly and inspection; Walinga's Machining Division provides you with complete solutions.

It's not what we do – it's who we are!
