VALUE BEYOND THE PRODUCT

WALINGA BULK FERTILIZER DISCHARGE SYSTEMS

Walinga has been building straight trucks and trailers to customer specifications since 1954. A heritage that's led to a fully integrated computer design and manufacturing process. Arguably every newly assembled Walinga unit is custom built.

"Building any body for anybody" challenges Walinga engineers to accommodate a wide variety of granular product, each one with unique characteristics requiring unique transfer solutions.

Bulk fertilizer transport is one such market solution.

BUILT BULK FERTILIZER TOUGH!

Built to customer specifications includes:

- Stainless steel internal components
- Custom painted, polished or natural aluminum tanks
- Custom compartment sizing
- Custom boom lengths to reach multiple bin sizes or field unloading into spreaders.

Upgrade to fully remote trailer unload where drivers control a transfer entirely from within the cab.

All other Walinga upgrades including but not limited to High Performance Hydraulic kits, LED task and boom lighting, polished aluminum tool boxes are available.

YES, SIZE MATTERS, BUT THERE'S MORE...

Of course size matters and Walinga delivers. Main auger tube diameter, thickness of flighting, major shaft size, stub shaft and bearings are all the thickest and or heaviest in the industry. Durability and longevity are priority; heavier shafts don't flex, thicker flightings and larger bearings last longer. Add Stainless steel V-Gates, stainless steel trough liner and stainless steel augers and the system is protected from the corrosive effects of most fertilizers. At Walinga, every component part is designed to perform relentlessly day after day.

**1 TON
per minute
UNLOAD TIME**

* Average benchmark. Exact transfer speeds may vary based upon product.

EVERY UNIT IS DESIGNED TO CUSTOMER SPECIFICATIONS.

- Disinfectant Spray System**
- Flip-up safety rail**
- 270 degree Boom Rotation**
- Custom Boom Auger Lengths**
- Boom LED lighting**
- Remote Controlled Boom**
- Roll Tarp Roof**
- Aluminum catwalks and ladders**
- LED Lighting Kit**
- Aluminum Tool Boxes**
- Air Ride Suspensions**
- Custom Unit Painting**
- Air operated gates**
- 9-12-9 auger discharge**
- True vertical auger with stuffer**
- Boom holding valve**
- SigAlarm High Voltage Warning System**
- Tire carrier**
- Hub-odometers**
- Bag carrier style fenders**
- Aluminum control cabinet**
- Air Operated Roof Lids**

FERTILIZER AUGER DISCHARGE SYSTEMS

Manufacturers of a full range of familiar discharge systems including Walinga's legendary Pneumatic Conveying Systems thru Paddle Discharge Systems, the properties of bulk fertilizer are best suited to Walinga's Auger Discharge System. Auger systems are available in different diameter configurations, with varied options for boom lengths. A Walinga HOAG Unit (High Output Auger) matched with Walinga's ultra tough, Ultra-Lite Aluminum construction and Low-Pro chassis design produces a trailer thats easy on fuel, big on durability and safety while delivering maximum transfer speeds.

AVAILABLE IN TRAILER & STRAIGHT TRUCK FORMATS

All units are fully customizable to meet the most challenging demands. From our largest trailers to the smallest straight truck, we have a solution. If you have a bulk transfer need, working with experienced Walinga engineers ensures longevity and performance. Walinga understands that a unit is the sum of its component parts. Walinga specifies and builds customer units without sacrifice, providing the best product backed by 24/7 support. A relationship that goes well 'Beyond the Product'.

WALINGA OFFERS CUSTOM SPECIFICATION OPTIONS TO SUIT YOUR NEEDS

- Disinfectant Spray System
- LED Lighting Kit
- Roll Tarp Roof
- Air Operated Roof Lids
- Horizontal Slide Gates
- Twin Post Hanger Bearings
- Custom Boom Auger Lengths
- SigAlarm High Voltage Warning System
- Remote Controlled Boom
- Tractor Hydraulic Package
- Air Ride Suspensions
- Aluminum Tool Boxes
- Various Lighting Options
- Complete Unit Painting
- Aluminum catwalks and ladders
- Air operated gates
- Ribbon augers
- Heavy Duty hanger bearings
- 9-12-9 auger discharge
- True vertical auger with stuffer
- Boom holding valve
- Tire carrier
- Hub-odometers
- Bag carrier style fenders
- Aluminum control cabinet
- Boom LED lighting
- Flip-up safety rail
