Walinga now offers an economical alternative to the solution of rodents entering bins by the bin piping. These end covers are an alternative of installing a DM holder onto the bin piping system. These covers are simply placed over the corresponding DM coupling.

The current part numbers are as follows:

- 11-116022-4 – END COVER, DM4
- 11-116023-4 – END COVER, DM5
- 11-116024-4 – END COVER, DM6
- 11-116025-4 – END COVER, DM7
- 11-116037-4 – END COVER, KM8

Model Drawing of End Cover
